

iema APPROVED INTERNAL EMS AUDITOR COURSE (UK)

BMT Cordah Limited

The development and implementation of an Environmental Management System (EMS) requires an organisation to examine the suitability and effectiveness of an EMS to meet the organisation's policy and objectives. This course develops the skills and expertise required to audit and review an environmental management system as prescribed by ISO 19011.

Aims and Objectives

The aim of the course is to equip participants with an understanding of the role of auditing in the context of EMS and to impart the various techniques available to undertake the audit in an effective manner. As a result of attending, participants will be able to:

- Understand the principles of auditing
- Understand the types of environmental audit
- Plan, conduct and report an environmental audit

Content

The course content includes:

- Principles of environmental auditing
- Aspects identification and evaluation
- Legal requirements
- Pre-audit preparation
- Conducting an environmental audit
- Post audit activities
- Non-conformance and corrective action
- Developing an auditing programme

Course Dates

8-10 February 2006 - Aberdeen

5-7 April 2006 - Inverness

7-9 June 2006 - Glasgow
