

SERVICES TO THE WASTE MANAGEMENT INDUSTRY

BMT Cordah Limited

BMT Cordah works closely with clients from the waste management and related industries providing environmental support through all aspects of the project life-cycle including pre-development, development, operation and post closure of the project. We collaborate with a number of specialists including traffic and landscape consultants to provide the full range of services required for all waste management developments.

Our Services Cover the Following Areas of the Project Life-Cycle

Pre-development

We have particular experience in obtaining planning permission for difficult developments and our services include:

- Site selection studies
- Bid support for PFI and PPP
- Consultation with stakeholders
- BPEO assessments
- Preparation and management of environmental statements
- Specialist input to environmental assessments
- PPC permit application
- Licence and consent preparation
- Best available technology assessment
- Baseline monitoring
- Negotiation with regulatory authorities.

Development

It is equally important to consider the potential environmental impact at development stage and we can advise on environmental management plans to ensure impacts are minimised. Our services include:

- Preparation and monitoring of environmental management plans
- Developing environmental management systems.

Operation

During the operational stage we provide a range of services to support our clients which include:

- Implementing environmental management systems
- Helping meet PPC and Licence conditions
- Auditing
- Risk assessment
- Air, land, water and noise monitoring
- Training.

Post Closure

We can support clients in the development of appropriate management strategies covering:

- Contaminated land assessment
- Remediation design
- Ongoing monitoring
- Licence surrender.
