Dialling - numbers shown include both national and international codes.

When dialling internationally, omit number in brackets

e.g. +44 (0)20 7234 9120 dial 44 20 7234 9120

For national dialling omit + prefix and include number in brackets

e.g. +44 (0)20 7234 9120 dial 020 7234 9120

The decision to merge The Salvage Association and BMT Murray Fenton Ltd into the new company BMT Marine & Offshore Surveys Ltd, presents us with a unique opportunity to combine the world-renowned knowledge, expertise and track record of two respected companies. The move allows BMT Marine & Offshore Surveys to respond to the changing requirements of the industry while continuing to provide world class technical consulting in core areas of loss prevention, casualty management and maritime risk.

Operating from a worldwide network of offices, the company will now provide, both in-house and seamlessly through BMT Group's 1200 strong team, an unrivalled capability to support global marine and offshore operations.

Our services include:

- Surveys of vessel and cargo casualties; provide recommendations to stabilise the situation and minimise loss; give advice on salvage and ship repair facilities;
- Warranty surveys of the transportation and installation of offshore modules;
- Marine and project risk assessments, including shipyards and new-building and conversion projects;
- Warranty surveys of critical equipment for construction projects;
- Third party liability casualty surveys and investigations;
- Expert witnesses;
- Audits of vessels, machinery and ship owner office procedures;
- Specialist ship design and conversion support;
- Plan approval;
- Structural and hydrodynamic evaluations;
- Intact and damaged integrity.

BMT Marine & Offshore Surveys Ltd is a leading international marine surveying and technical consultancy, operating from a worldwide network of offices. The company incorporates the world-renowned casualty expertise of The Salvage Association and BMT Murray Fenton.

BMT Marine & Offshore Surveys Ltd is also a leading marine consultancy providing warranty services for the cargo, offshore energy, construction, liability and H&M insurance markets. Additional services include risk management; risk assessments, including environmental and emissions risks, feasibility studies; risk audits of vessel and engine room operations, shipbuilding and repair facilities and their procedures; assessments of port operations, wreck removal and navigation.

With over 150 years experience of loss prevention, today BMT utilises an unrivalled knowledge base in ship and offshore design and operation. This is complemented by the most advanced analysis techniques to support our technical consultancy services in areas including specialist plan approval, structural design and failure analysis, intact and damage stability and environmental and emissions management.

Our services include:

- Surveys of vessel and cargo casualties; providing recommendations to stabilise the situation and minimise loss; give advice on salvage and ship repair facilities;
- Warranty surveys of the transportation and installation of offshore modules;
- Dry tows; seakeeping and seafastening design;
- Wet tows; seakeeping, stability and damaged stability;
- Marine facility and project risk assessments;
- Warranty surveys of critical equipment for construction projects;
- Third party liability casualty surveys and investigations;
- Condition surveys of all types of vessels;
- Expert witnesses;
- Audits of vessels, machinery and ship owner office procedures;
- Ship design, upgrade and conversion support for Classification Society and Flag State Approval;
- Shipyard supervision/Owners representation;
- Technical plan approval support;
- Environmental management systems and emissions evaluation.
