

CORPORATE INDUSTRIAL SERVICES

BMT Cordah Limited

BMT Cordah has supported a considerable number of clients by assisting with the development of projects that require environmental assessment. We have an extensive track record in undertaking environmental impact assessments throughout the world and in identifying appropriate mitigation measures and solutions on behalf of our clients.

Project and Development Services:

- **Environmental impact assessment**
- **Advice and support on environmental planning issues**
- **Contaminated land investigation**
- **Public consultation and presentation**
- **Environmental scoping studies**
- **IPC permitting and negotiations**
- **Survey, sampling and monitoring programmes**
- **IPPC application preparation**

BMT Cordah provides solutions, advice, and training for all aspects of project development. We fully understand the importance of timely and cost-effective advice when considering solutions to environmental issues.

BMT Cordah routinely works with project teams on individual assignments, exploring in detail the environmental performance, effects and implications of both new and existing developments.

As well as assessing environmental impacts on behalf of our clients we also prepare statements, compile information in support of planning applications and represent our clients throughout the development process. We undertake a wide variety of investigation and monitoring procedures in support of licence or permit requirements and frequently present such information to regulatory authorities.

Corporate Industrial Services

BMT Cordah specialists provide expert advice on a range of issues relating to emissions, such as legislation, environmental effects, treatment, mitigation and disposal. Our particular expertise includes landfill, waste water and water treatment, drill cuttings treatment and disposal, and all types of atmospheric emissions.

Advice on Emissions; Air, Water and Waste:

- **Waste management - minimisation, recycling technology and planning**
- **Air dispersion modelling and assessment of health effects**
- **Waste and waste water emission audits and mass balance**
- **Pollution control technology, strategy development and implementation**
- **IPC permitting support and IPPC preparation**
- **Appraisal of best practicable environmental option (BPEO) and best available techniques not entailing excessive cost (BATNEEC)**

BMT Cordah has completed air dispersion modelling studies for single and multiple point sources both offshore and onshore.

We have examined in detail the range of systems and technologies available for treating and disposing of drill cuttings. Using BPEO techniques, Cordah has assessed cuttings treatment options in terms of impact, energy use, emissions, cost and safety. Such studies contribute sound information to management decisions.

The name 'cordah' is derived from the Gaelic 'cordadh s'a'chruinne' which translates as 'harmony in the world' and signifies the company's Scottish heritage and its worldwide service

BMT Cordah provides a total environmental consultancy service capability for:

- The Oil Industry Worldwide
- Industry, Commerce and Public Sector
- Governments and Funding Agencies Globally

We have offices in Aberdeen, Edinburgh and London and working experience in UK, Europe, South & Central America, Africa, Middle East and the Asian Pacific.

BMT Cordah is part of British Maritime Technology (BMT), a leading multi-disciplinary engineering and technology consultancy. BMT's main markets are environmental, oil and gas, defence, transportation and casualty. BMT has offices throughout the UK and in Europe, North America and Asia.

BMT Cordah's aim is to provide practical, cost-effective and comprehensive solutions to environmental problems.
