

CORPORATE INDUSTRIAL SERVICES

BMT Cordah Limited

BMT Cordah provides a client-focused service to customers in both the private and public sector. Through working with our clients we aim to develop long-term relationships built on an understanding of their particular business needs, and in so doing, devise management solutions to suit these needs.

Management Services:

- **Advice on policy and strategy**
- **Liability and risk assessment**
- **Development of environmental management systems**
- **Stakeholder analysis**
- **Environmental reporting**
- **Regulatory compliance**
- **Due diligence**
- **Fore-sighting**
- **Training**

In a rapidly changing business environment it is important that organisations keep abreast of changes, in particular those which could affect business efficiency and devise management systems to respond to these changes. BMT Cordah works with clients across many sectors including transport, power generation, waste management, food and drink, manufacturing, local authorities and local enterprise companies.

Our work involves supporting companies in identifying business risk, developing systems to manage environmental risk, and assisting companies to ensure effective communication with third parties on company performance. We are always happy to discuss with clients their individual management needs and by developing a thorough understanding of the organisation use our experience to provide focused, pragmatic solutions.

We also aim to assist our clients to build robust management frameworks to deal with future changes in legislation and we are able to provide training programmes to support companies in awareness raising and competence.

Corporate Industrial Services

BMT Cordah is committed to helping its clients develop and maintain effective environmental management programmes. To do this, we assist them in identifying the impacts associated with their environmental emissions and support them in developing measures to manage and control these impacts.

Emission Control Services:

- Air monitoring and dispersion modelling
- Waste management and minimisation
- Effluent management and minimisation
- Effective resource utilisation
- Auditing
- Regulatory compliance including IPC/IPPC
- Contaminated land assessment
- Training

BMT Cordah has supported a number of clients in assessing the impacts from their emissions and identifying ways in which they can be effectively managed. We undertake audits against authorisation requirements and support companies in liaising with the regulators. We also undertake baseline monitoring studies, model impacts and provide both technical and management solutions to minimise impacts and ensure the most effective use of resources.

BMT Cordah has undertaken numerous air dispersion modelling studies on behalf of local authorities as part of the development of their air quality strategies. We have also assisted many industrial clients with point source emission monitoring and subsequently provided advice on appropriate abatement technologies. We support clients in cost reduction through effective waste management, careful selection of contractors and effective resource utilisation.

All these services are supported by a training capability that delivers purpose-designed training courses. Our aim is to ensure that our clients are operating as effectively as possible, minimising environmental impacts and associated costs.

The name 'cordah' is derived from the Gaelic 'cordadh s'a'chruinne' which translates as 'harmony in the world' and signifies the company's Scottish heritage and its worldwide service

BMT Cordah provides a total environmental consultancy service capability for:

- The Oil Industry Worldwide
- Industry, Commerce and Public Sector
- Governments and Funding Agencies Globally

We have offices in Aberdeen, Edinburgh and London and working experience in UK, Europe, South & Central America, Africa, Middle East and the Asian Pacific.

BMT Cordah is part of British Maritime Technology (BMT), a leading multi-disciplinary engineering and technology consultancy. BMT's main markets are environmental, oil and gas, defence, transportation and casualty. BMT has offices throughout the UK and in Europe, North America and Asia.

BMT Cordah's aim is to provide practical, cost-effective and comprehensive solutions to environmental problems.
